Subject: Leave MS alone

- Are you going to prosecute Netscape because they drove Mosaic out of business using THE SAME TACTICS MS used in ridding them (Netscape) out?
- Are you aware that this verdict might have had a positive effect IF IT HAD BEEN REACHED 3-4 YEARS AGO when bundling really mattered?
- There are ALTERNATIVES to MS. They are even free.
- Which mail client are you using to read this message? Outlook?

Give it up. Settle and let it be over with for everyone!
